## Goals for Your Care

People see a chiropractor for a variety of reasons. Some go for relief of pain, some to correct the cause of pain and others for correction of whatever is malfunctioning in their body. Your doctor will weigh your needs and desires when recommending your care program. Please check the type of care desired so that we may be guided by your wishes whenever possible.

I want the Doctor to select the type of care appropriate for my condition

Relief care: Symptomatic relief of pain or discomfort.

Corrective care: Correcting and relieving the cause of the problem as well as the symptom

Comprehensive care: Bring whatever is malfunctioning in the body to the highest state of health possible with Chiropractic Care
